Hi Everyone - thanks for adding in the bullet points to the prep for the riparian rule. Attached is the compiled version of the talking points for each of the areas that we have so far.

Alan and I are getting more information on the format of the EQC and BOF meetings to see if we need to develop some general talking points or Q&A, but we should be able to take what folks have put together to help craft some answers for you all to review.

Please don't distribute this outside of EPA. Thanks! - Jenny
